

HOW DID WE GET HERE & WHERE ARE WE GOING?

Hackney Housing History project

The Hackney Housing History project Has come out of some current housing campaigns, and the need to communicate, to learn from other people's housing situations and struggles.

We are carrying out research, including interviewing people about the past, the present, and the future we would like to work towards together.

Do you want to be interviewed about your experiences, in Hackney or elsewhere? Interviews will be kept at Hackney Museum for future use.

Do you want to get involved in the project?
